Buy now, Fly now, Stay now, Party now, Live now & Pay later with FLXPAY.

The truest meaning of flexibility on payments for all of life's expenses.

The Benefits Of Using BNPL

By now, many consumers have either heard about, considered using or have fully adopted one or more of the available Buy Now Pay Later (BNPL) payment methods. BNPL offers consumers the ability to pay for what they need now instead of having to wait until payday to get the product or service they need. The trouble is that many BNPL offers are only suitable for consumers with the highest credit ratings.

What Is FLXPAY ?

FLXPAY offers access to multiple BNPL lenders - and all their financial products (i.e., a store that offers both Kalma and Sezzle as BNPL in their online shopping) - through a single integration. This diverse network of prime, near prime and sub-prime lenders ensures higher approval rates for consumers and increased revenue for merchants. And the benefits do not stop there.

How FLXPAY Works For Merchants ?

The process is simple for merchants, first sign up your business and integrate our BNPL payment option to your current e-commerce platform for POS system. Then choose which payment option you want for your clients.

Finally, collect your payments within 24 hours when your clients choose to buy your products or service using FLXPAY. No risk, no complications, just happier customers, and higher sales for your business!

Why Use FLXPAY ?
